HARSHAW/FILTROL PARTNERSHIP • FILTROL DIVISION • 2580 ANDREW AVENUE, SALT LAKE CITY, UTAH 84104 • TELEPHONE (801) 972-2731

January 8, 1986

Mr. L. P. Braxton, Administrator
Mineral Resource Development and
Reclamation Program
State of Utah Natural Resources
Oil, Gas, & Mining
355 West North Temple
3 Triad Center
Suite 350
Salt Lake City, Utah 84180 - 1203

Dear Mr. Braxton:

As we discussed today on the telephone, the Harshaw/Filtrol Partnership, (formerly Filtrol Corporation) Salt Lake Facility discontinued production of clay catalysts in 1980. Since that time the plant has been used to process Hydrodesulfurization Catalysts which have an alumina base.

To my knowledge, Harshaw/Filtrol has no activity at the Emerald Clay Mine. The partnership does have a clay processing facility in Jackson Mississippi but they do not use any Utah clays in their process.

If I can be of any further assistance in this matter please feel free to call.

Sincerely,

T. D. McAdams
Plant Manager
